

Dead Sea Scrolls Cave #4 at Qumran

Asking for your Support and Participation

Without the support of concerned Christians like you, this project would not be possible. World Video Bible School (WVBS), Southwest School of Bible Studies, Doug Garner, Gary Massey, and Jonathan Moore, are all helping to financially support this effort. However, we are still in need of additional funding. There will be numerous costs for such an undertaking, including travel expenses, filming fees, production costs, and numerous incidentals.

Our primary goal is to raise \$18,000.00 to assist with the expense of the trip. Carla, Micah, and I will also be personally contributing to this expense.

Our secondary goal is to raise an additional \$10,000.00 in support for WVBS in their pledge to assist with production costs and to offset the travel expenses of our film crew. WVBS's existence is dependent upon the gracious gifts of donors like you.

Managing Team

Rudy Cain – World Video Bible School
John Moore – Dripping Spr. Church of Christ

On Site Project Team

Photographers and Staff

Mat Cain – Videographer & Photographer
Doug Garner - Videographer & Photographer
Carla Moore – Proofing, Editing, & Blogging
Micah Moore – Crew Member and Support

Narrators and Authors

Rick Brumback – Historian
DeWayne Bryant – Archaeologist
Gary Massey – Attorney
Jonathan Moore – Physician
John Moore – Minister

Contributions and Donations

Please make all checks payable to the Dripping Springs Church of Christ with the notation “Bible Lands Project.”

No contribution is too small, and above all we desire your prayers.

Please mail your gifts to the following:

THE BIBLE LANDS PROJECT

Prospective Donor's Guide

John, Carla, & Micah Moore

Under the direction of project leader John Moore and in cooperation with World Video Bible School, a project team will be assembled to travel to the countries of

Israel and Jordan March 16 – April 1, 2015, for an overall educational, evangelistic, and edifying purpose.

In Defense of the Faith

The Bible story and its message of salvation are connected to a real place and in a real time in history. Its reliability and credibility is therefore dependent upon evidence that corroborates its claims. New Testament scholar C.H. Dodd said “Some religions can be indifferent to historical fact, and move entirely upon the plane of timeless truth. Christianity cannot” (*History and the Gospel*). The Bible Lands Project is dedicated to showcasing those historical facts through the *Faith Lessons in the Land of the Bible*—a thirteen segment book and video kit designed to bolster confidence in the verity of scripture.

As an Aid to the Believer

G. Ernest Wright wrote, “Geography, history, and religion are so inextricably bound together in it [the Bible] that the religious

message cannot be truly understood without attention to the setting and conditions of the revelation.” (*Westminster Bible Atlas*). *Faith Lessons in the Land of the Bible* will present helpful insights and information to enlighten viewers about the historical, cultural, and geographical environs of the Bible stories and precepts. Both written and video documentation presented in this project will help bring the Bible to life, as well as serve as a springboard for devotional lessons, classroom discussion, and as general means of edification for all.

For a Repository of Resources

Team members for this project will not only include academically qualified instructors and educators, but also a professional videographer and experienced photographer who will capture and archive thousands of images and hours of video. With this repository of knowledge, numerous additional applications can be made for use in the classroom, instructional materials, and in other World Video Bible School Projects.

As a tool for Evangelism

Through the *Faith Lessons in the Land of the Bible*, believers can share with others some of the basic truths about the work and reality of Jesus, His message of salvation, and the hope of heaven.

With special attention given to the city of Jerusalem, the story of the crucifixion, resurrection, establishment of the church, and the new birth, believers will have access to an exciting and modern evangelism tool.

Synagogue in Capernaum where Jesus ministered

The Bible Lands Project will produce:

- A 13 lesson video series called *Faith Lessons in the Land of the Bible*, for use in educational, evangelistic, devotional, or private settings.
- A companion book with an accompanying teacher’s guide for use in classroom instruction.
- Bible land photographs package for use in instructional settings
- Research and Exploration opportunities
- Investigative opportunities for future guided tours for church members and students
